Schedule of benefits

Underwritten by Aetna Life Insurance Company in the state of Nevada

Schedule of benefits

This schedule of benefits lists the **deductibles** and **copayments/coinsurance**, if any, that apply to the **eligible health services** you get under this plan. You should read this schedule to become aware of your **deductibles** and **copayments/coinsurance** and any limits that apply to the services.

How to read your schedule of benefits

- You must pay any **deductibles** and **copayments/coinsurance**.
- You must pay the full amount of any health care service you get that is not a **covered benefit**.
- This plan has limits for some **covered benefits**. For example, these could be visit, day or dollar limits. They may be:
  - combined limits between
  - separate limits for

network providers and **out-of-network providers** unless we say differently.

> **Important note:**
> All **covered benefits** are subject to the **calendar year deductible** and **copayment/coinsurance** unless otherwise noted in the schedule of benefits below.

The policy contains a complete description of the **precertification** program. You will find details on **precertification** requirements in the *Medical necessity and precertification requirements* section.

Failure to **precertify** your **eligible health services** when required will result in the following benefits reduction:

- The covered benefit will be reduced by $400 per occurrence for each type of **eligible health service**

The additional percentage or dollar amount of the **recognized charge** which you may pay as a penalty for failure to obtain **precertification** is not a **covered benefit**, and will not be applied to the **deductible** amount or the **maximum out-of-pocket limit**, if any.

General coverage provisions

This section explains the:

- **Deductible**
- **Maximum out-of-pocket limits**
- Limitations

listed in this schedule of benefits.

Deductible provisions

Eligible health services applied to the out-of-network **deductible** will not apply to the network **deductible**. **Eligible health services** applied to the network **deductible** will not apply to the out-of-network **deductible**.

The **deductible** may not apply to certain **eligible health services**. You must pay any applicable **copayments/coinsurance** for **eligible health services** to which the **deductible** does not apply.

Individual **deductible** You pay for network **eligible health services** each **calendar year** before the plan begins to pay. This individual **calendar year deductible** applies separately to you and each covered dependent. Once you have reached the **calendar year deductible**, this plan will begin to pay for **eligible health services** for the rest of the **calendar year**.
Family **deductible** You pay for network **eligible health services** each **calendar year** before the plan begins to pay. After the amount paid for **eligible health services** reaches your family **calendar year deductible**, this plan will begin to pay for **eligible health services** for the rest of the **calendar year**.
To satisfy this family **deductible** for the rest of the **calendar year**, the following must happen: • The combined **eligible health services** that you and each of your covered dependents incur towards the individual **calendar year deductibles** must reach this family **deductible** in a **calendar year**. When this happens in a **calendar year**, the individual **calendar year deductibles** for you and your covered dependents are met for the rest of the **calendar year**.

Copayment: This is a specified dollar amount or percentage that must be paid by you at the time you receive **eligible health services** from a **network provider**.
Per admission **copayment** A per admission **copayment** is an amount you are required to pay when you or a covered dependent have a **stay** in an inpatient facility.

Coinsurance: The specific percentage you have to pay for a **covered benefit** listed in the schedule of benefits.
A separate cost share may apply per facility. This cost share is in addition to any other cost share applicable under this plan. It may apply to each **stay** or on a per day basis up to a per admission maximum amount. If you are in the same type of facility more than once, and your **stays** are separated by less than 48 hours (regardless of cause), only one per admission cost share will apply. Not more than three per admission cost shares will apply for each facility type during a **calendar year**.

Maximum out-of-pocket limits provisions
Eligible health services that are subject to the **maximum out-of-pocket limit** may include **covered benefits** provided under the medical plan and the outpatient **prescription drug** plan.
Eligible health services applied to the out-of-network **maximum out-of-pocket limit** will not apply to the network **maximum out-of-pocket limit** and **eligible health services** applied to the network **maximum out-of-pocket limit** will not apply to the out-of-network **maximum out-of-pocket limit**.
The **maximum out-of-pocket limit** is the maximum amount you are responsible to pay for **copayments/coinsurance** and **deductible** for **eligible health services** during the **calendar year**. This plan may have an individual and family **maximum out-of-pocket limit**. As to the individual **maximum out-of-pocket limit**, each of you must meet your **maximum out-of-pocket limit.**
Individual **maximum out-of-pocket limit** Once you or your covered dependents meet the individual **maximum out-of-pocket limit**, this plan will pay 100% of the **negotiated charge** for **covered benefits** that apply toward the limit for the rest of the **calendar year** for that person.

Family **maximum out-of-pocket limit**

Once you or your covered dependents meet the family **maximum out-of-pocket limit**, this plan will pay 100% of the **negotiated charge** for **covered benefits** that apply toward the limit for the remainder of the **calendar year** for all covered family members.

To satisfy this family **maximum out-of-pocket limit** for the rest of the **calendar year**, the following must happen:

- The family **maximum out-of-pocket limit** is a cumulative **maximum out-of-pocket limit** for all family members. The family **maximum out-of-pocket limit** is met by a combination of family members. No one person within a family will contribute more than the individual **maximum out-of-pocket limit** amount in a **calendar year**.

The **maximum out-of-pocket limit** may not apply to certain **eligible health services**. If the **maximum out-of-pocket limit** does not apply to a covered benefit, your **copayment/coinsurance** for that covered benefit will not count toward satisfying the **maximum out-of-pocket limit** amount.

Certain costs that you incur do not apply toward the **maximum out-of-pocket limit.** These include:

- All costs for non-covered services
- Any out of pocket costs for non-emergency use of the emergency room
- Any out of pocket costs incurred for non-urgent use of an **urgent care provider**
- Obesity (bariatric) surgery performed out-of-network

Limit provisions

Eligible health services applied to the out-of-network limit will apply to the network limit and **eligible health services** applied to the network limit will apply to the out-of-network limit.

Your financial responsibility and determination of benefits provisions

Your financial responsibility for the cost of services is based on when the service or supply is provided, not when payment is made. Benefits will be pro-rated to account for treatment or portions of **stays** that occur in more than one **calendar year**. Determinations regarding when benefits are covered are subject to the terms and conditions of the policy.

Outpatient prescription drug deductible provisions

The **calendar year** outpatient **prescription drug deductible** may not apply to certain **eligible health services**. You must pay any applicable **copayments/coinsurance** for **eligible health services** to which the outpatient **prescription drug deductible** does not apply.

The **calendar year** outpatient **prescription drug deductible** applies to all outpatient **prescription drug eligible health services** except, **generic prescription drugs** and **tier 1A - value drugs** dispensed by a **network pharmacy,** and diabetic drugs and supplies.

Individual outpatient **prescription drug deductible**

You pay for **eligible health services** each **calendar year** before the plan begins to pay. This **calendar year deductible** applies separately to you and each covered dependent. Once you have reached the **calendar year** outpatient **prescription drug deductible**, this plan will begin to pay for eligible health services for the rest of the **calendar year**.

Family outpatient **prescription drug deductible**

You and your covered dependents pay for **eligible health services** each **calendar year** before the plan begins to pay. After you reach this family **calendar year** outpatient **prescription drug deductible**, this plan will begin to pay for **eligible health services** that you and your covered dependents incur for the rest of the **calendar year**.

To satisfy this family deductible limit for the rest of the **calendar year**, the following must happen:

- The combined **eligible health services** that you and each of your covered dependents incur towards the individual **calendar year** outpatient **prescription drug deductibles** must reach this family outpatient **prescription drug deductible** limit in a **calendar year**.

When this occurs in a **calendar year**, the individual **calendar year** outpatient **prescription drug deductibles** for you and your covered dependents is met for the rest of the **calendar year**.
